

site plan size 62'x32'

back side there is our house, so we need a gallery for going back side

both side i want to be open up to 2'

i want to make here hostile of one badroom flat. (one floor will be 4 flat)
this will be 5 floor. with basement.
can u plz tell me where i put stair cases for upper floor and
where i put stair cases for basement .
and also construction material like size of steel rod(12mm, 8mm,10mm) , cement
grade(33,43,53), what ratio of sand and cement,
or this basement is okay or not .
